

Problem Statements : Loop Control Structures

1. Write a Python program to print all natural numbers from 1 to n. - using while loop
2. Write a Python program to print all natural numbers in reverse (from n to 1). - using while loop
3. Write a Python program to print all alphabets from a to z. - using while loop
4. Write a Python program to print all even numbers between 1 to 100. - using while loop
5. Write a Python program to print all odd number between 1 to 100.
6. Write a Python program to find sum of all natural numbers between 1 to n.
7. Write a Python program to find sum of all even numbers between 1 to n.
- 8.
9. Write a Python program to find sum of all odd numbers between 1 to n.
10. Write a Python program to print multiplication table of any number. Take user input.
11. Write a Python program to count number of digits in a number.
12. Write a Python program to find first and last digit of a number.
13. Write a Python program to find sum of first and last digit of a number.
14. Write a Python program to swap first and last digits of a number.
15. Write a Python program to calculate sum of digits of a number.
16. Write a Python program to calculate product of digits of a number.
17. Write a Python program to enter a number and print its reverse.
18. Write a Python program to check whether a number is palindrome or not.
19. Write a Python program to find frequency of each digit in a given integer.
20. Write a Python program to enter a digit and print it in words.
21. Write a Python program to find power of a number using for loop.
22. Write a Python program to calculate factorial of a number.
23. Write a Python program to find HCF (GCD) of two numbers.
24. Write a Python program to find LCM of two numbers.
25. Write a Python program to check whether a number is Prime number or not.
26. Write a Python program to print all Prime numbers between 1 to n.
27. Write a Python program to find sum of all prime numbers between 1 to n.
28. Write a Python program to check whether a number is Armstrong number or not.
29. Write a Python program to print all Armstrong numbers between 1 to n.
30. Write a Python program to print Fibonacci series up to n terms.
31. Write a Python program to print the given star patterns.

```
*  
* *  
* * *  
* * * *  
* * * * *
```

32. Write a Python program to print the given number patterns.

```
1  
2 2  
3 3 3  
4 4 4 4  
5 5 5 5 5
```
